# GStore

## Header

### Menu Links:

From your 3dcart Online Store Manager: Go to **Content** -> **Site Content**. Here, you can easily Add / Edit / Remove your menu links and you can easily sort them out.

Read more information about managing site content section here:

<https://support.3dcart.com/Knowledgebase/Article/View/51>

To change the free shipping amount, please look for `var freeship = 99;` at the bottom of the frame.html and update the amount without any currency signs.

For instructions to change the logo, please refer to this article:

<https://support.3dcart.com/knowledgebase/article/View/630/5/how-do-i-add-logos-to-my-store>

### Category Navigation:

Please refer to <https://support.3dcart.com/Knowledgebase/Article/View/178/9/how-do-i-use-categories> for details to manage your categories.

## Homepage

### Carousel:

You can add up to 6 slides to the homepage main slide. Please refer to this article below:

<https://support.3dcart.com/Knowledgebase/Article/View/582>

## Category Banners:

Proin lacus urna

Maecenas ultrices

For each banner you can modify;

- **Banner image**
- **Banner Heading**
- **Banner link URL**
- **Image alt text (For SEO purposes)**

How to upload images?

<https://support.3dcart.com/Knowledgebase/Article/View/389/6/how-do-i-upload-my-product-images>

To modify banners;

- ❖ Connect to your store through FTP and navigate to template folder `/web/assets/templates/gstore-core/`
- ❖ Look for the file named `home.html` and download it to your computer.
- ❖ Open the file in your text editor to make changes. After your changes are done, make sure to upload it back to the same folder and replace the file there.
- ❖ In the file `home.html` look for the code below to modify the content as needed.
- ❖ Upload images to media library and use their URLs in **Banner image**. The recommended size for these images is: **575px x 250px**

### Home Bottom Banner:

You can modify;

- Banner image
- Banner Heading
- Button Text
- Button link URL

How to upload images?

### Code:

```
<div class="middle-bottom">
<a href="https://www.3dcart.com/">
<div class="banner-holder">

</div>
<div class="mid-bottom-text">
<h2>Our Story</h2>
</div>
</a>
</div>
```

### Brands scroller:

### For brands carousel you can;

- Add a new brand
- Modify a brand

### For this you can modify;

- Brand Image
- Brand link
- Image alt text (For SEO purposes)

### To Add or Modify;

- ❖ Connect to your store through FTP and navigate to template folder `/web/assets/templates/gstore-core/`
- ❖ Look for the file named `home.html` and download it to your computer.
- ❖ Open the file in your text editor to make changes. After your changes are done, make sure to upload it back to the same folder and replace the file there.
- ❖ In the file `home.html` look for the code below to modify the content as needed
- ❖ Upload images to media library and use their URLs in **Brand image**. The recommended size for these images is: Max width 150px and Max height 60px

If you need to add an additional item to slider, use the snippet below and populate the content inside the `<div>` Element with class **"BrandScroller"**

#### Code:

```
<div class="brand-item">
<a href="https://www.3dcart.com/">

</a>
</div>
```

#### Instagram:

##### To change **Heading**;

- Connect to your store through FTP and navigate to template folder `/web/assets/templates/gstore-core/`
- Look for the file named `home.html` and download it to your computer.
- Open the file in your text editor to make changes. After your changes are complete make sure to upload it back to the same folder and replace the file there.
- In the file `home.html` look for the code below to modify the content as needed.

#### Code:

```
<h3><span class="icon-instagram"></span> #TestClientId</h3>
```

The instagram widget is being served via [SnapWidget.com](https://snapwidget.com).

To get your widget code:

- ❖ Go to <https://snapwidget.com/> and sign up.
- ❖ After you are signed up and logged in, you will see a “Create A new Widget” button. Click that.
- ❖ Select the Instagram responsive grid photos widget.
- ❖ Click on “Username” field to connect your Instagram account. Once done configure the widget as needed.
- ❖ Once done, click on “Get Widget” and copy the code.
- ❖ Connect to your store through FTP and navigate to template folder `/web/assets/templates/gstore-core/`
- ❖ Look for the file named `home.html` and download it to your computer.
- ❖ Open the file in your text editor to make changes.
- ❖ Look for code below and replace everything with the code you just copied from [SnapWidget.com](https://snapwidget.com).

#### Code:

```
<div class="SnapWidget">
<script src="https://snapwidget.com/js/snapwidget.js"></script>
<iframe src="https://snapwidget.com/embed/499565" class="snapwidget-widget"
allowtransparency="true" frameborder="0" scrolling="no" style="border: none; overflow:
hidden; width: 100%; height: 225px;" id="iFrameResizer0"></iframe>
</div>
```

## Footer
